- Frote y remueva todas las manchas fuertes de la superficie.
- Aplique la solucion directamente sobre la superficie.
- Deje reposar por 2 a 5 minutos.
- Frote utilizando un cepillo, almohadilla o esponja.
- Utilice un trapo limpio y seco para dar brillo como para pulir acero inoxidable y superficies de alto brillo.

Theatre Environment Control Systems

DAILY CLEANING SOLUTIONS:
- Treat Floor Drains with Enzyme Solution
- Deodorize all Splash Areas (floors, walls, urinals and toilets) with Enzyme Solution or Disinfectant/Deodorizer Solution

WEEKLY CLEANING SOLUTIONS:
- Deep Scrub Tile Floors - Liberally apply cleaning solution to entire floor surface and allow to stand for 3 to 5 minutes. Using a rotary scrubber and brush, scrub entire area and extract using a commercial wet/dry vacuum.
- Do not allow emulsified solution to absorb back into the tile and/or grout.
- Spray apply an enzyme or disinfectant solution to floor surface and around urinals & toilets. Do not rinse.

MONTHLY CLEANING SOLUTIONS:
